ACTA VITAMINOLOGICA ET ENZIMOLOGICA

1985 - Volume *7 n.s.*

INDICES

Paper Index

Effectiveness and reliability of medium term treatment with a diet rich in olive oil of patients with vascular diseases. (S. Zoppi, C. Vergani, P. Giorgietti, S. Rapelli, B. Berra) pag. 3

Attività antidolorifica del Benexol B_{12} nella sindrome vertebrale dolorosa. (D. Destito, N. Canonico, T. Tentori-Montalto) » 9

Possibility of 2,4,5-triamino-6-hydroxypyrimidine as an intermediate in the pathway of riboflavin biosynthesis. (K. Nakajima, Y. Yamada and H. Mitsuda) » 19

Studies on the 4-carbon compound needed for the formation of the O-xylene ring of riboflavin. (K. Nakajima) » 25

1-alpha-OH-cholecalciferol (1-αOH-D_3) and optimal calcium intake in calcium deficiency osteoporosis mediated by parathyroid activity morphologic and biochemical changes in adult male rats. (T.S. Lindholm, O.S. Nilsson and T.C. Lindholm) » 39

Does the non-absorbable fat (sucrose polyester) interfere with the intestinal absorption of vitamin A? (E.G. Sletten, D. Hollander, V. Dadufalza) » 49

Biochemical and clinical effects of vitamin E administration in homozygous beta-thalassemia. (O. Giardini, A. Cantani, A. Donfrancesco, F. Martino, O. Mannarino, P. D'Eufemia, C. Miano, U. Ruberto, R. Lubrano) » 55

Modificazioni della contrazione da acetilcolina indotte dalla carnitina su vasi coronarici isolati «in vitro». (V. Bettini, C. Catozzo, R. Martino, F. Mayellaro, L. Munari, V. Tegazzin, P. Ton) » 61

Role of free radical scavengers on phenylhydrazine induced hemolysis in rat. (H Imanishi, T. Nakai, T. Abe and T. Takino) » 71

Glucocorticoid-induced bone disorders nature and mechanisme of glucocorticoid-induced bone disorders in dogs. (I. Izawa, T. Makita and H. Ichiki) » 77

Developmental pattern of the hepatic DNA, RNA and protein in relation to maternal vitamin a status in rats. (H.S. Sharma and U.K. Misra) » 85

Tryptophan metabolism in patients with breast cancer. (J.M. Poulter, J.W.T. Dickerson and W.F. White) » 93

Effect of reductones on cyclic 3',5'-adenosine monophosphate phosphodiesterase. (K. Shinohara, H. Fujichi, Y. Hidaka, Y.K. Tseng, H. Murakami, H. Omura) » 99

Biochemical and clinical study of calcium pantetheine-s-sulfonate. (R. Hayakawa, K. Matsunaga, C. Ukei and K. Ohiwa) » 109

Identification of thiamine diphosphate-binding proteins from rat liver supernatant. (A.I. Voskoboyev and I.P. Chernikevich) » 115

Effects of vitamin C intake on whole blood plasma, leucocyte and urine ascorbic acid and urine oxalic acid levels. (F. Erden, A. Hacisalihoğlu, Z. Koçer, B. Şimşek, S. Nebioğlu) » 123

Ascorbic acid effect on some lipid fractions in human beings. (F. Erden, S. Gülenç, M. Torun, Z. Koçer, B. Şimşek, S. Nebioğlu) » 131

Effetti terapeutici della vitamina A associata alla vitamina E nelle ipoacusie percettive. (G. Romeo, M. Giorgetti) » 139

Ascorbic acid stability in aqueous solutions. (E. Meucci, G.E. Martorana, A. Ursitti, M.G. Pischiutta, G.A.D. Miggiano, A. Castelli) » 147

Comparative study of mechanical responses of hepatic arteries strip to adrenalin in presence of pyridoxine and pyridoxal-5'-phosphate. (V. Bettini, R. Martino, L. Munari, F. Mayellaro, P. Ton) » 155

Treatment with vitamin 24,25 $(OH)_2D_3$ does not change serum levels of 1,25 $(OH)_2D$ or urinary calcium excretion rate in man. (K. Thomsen, B.J. Riis, L. Hummer, C. Christiansen) » 167

Comparison of therapeutic usefulness of vitamin D_3 analogs on osteoporosis caused by ovariectomy in rats. (Y. Izawa, K. Sagara, T. Kadota, T. Makita) » 173

Maternal plasma proteins, magnesium, zinc and copper concentration at term associated with birth size in Kuwait. (M.S. Mameesh, H. Hathout, M.A.A.I. Safar, A. Mahfouz, J.M. Al-Hassan) » 183

Repletion and depletion of serum alpha and beta carotene in humans with carrots and an algae-derived supplement. (C.D. Jensen, T.S. Pattison, G. A. Spiller, J.H. Whittam, J. Scala) » 189

Relationships between biotin and DNA contents and DNA turnover in lymphoid organs: thymus, lymph nodes and spleen. (F. Petrelli, P. Moretti, P. Sciarresi, A.M. Dahir) » 199

«ESVITAF». Survey on the vitamin status of the french: relationships between nutrient intake and biochemical indicators. (B. Herbeth, G. Potier De Courcy, J. Sancho, M. Bourgeay-Causse, C. Carre-Guery, N. Chau, E. Delacoux, C. Le Devehat, A. Lemoine, J.P. Mareschi, L. Miravet, J. Zittoun) » 207

Multivitamin-mineral supplementation: effects on blood chemistries of college-age women. (G.A. Spiller, T.S. Pattison, C.D. Jensen, L.G. Wong, J.H. Whittam, J. Scala) » 217

Analisi mediante cromatografia liquida ad alta risoluzione (HPLC) del contenuto di vitamina A e β-carotene di piatti precucinati termicamente trattati. (S. Ciappellano, F. Brighenti, M. Porrini, G. Testolin) » 223

Effets de l'administration de doses moderées d'etretinate (RO 10-9359) à des rats carences en vitamin A. (D. Taruoura, P. Higueret, C. Suberville, D. Higueret, H. Garcin) » 229

Contrazione dello stomaco isolato di ratto per stimolazione di fibre post-gangliari, in presenza di 4-metilesculetolo. (R. Aragno, V. Bettini, G. Bruni, F. Mayellaro, P. Ton) » 239

Facilitazioni sull'insorgenza delle risposte tetaniche indotte dal 4-metilesculetolo in preparati neuromuscolari isolati di anfibio. (R. Aragno, V. Bettini, L. De Bartolomeis, P. Fabro, P. Ton, L. Munari) » 249

Liberation of prostaglandin-like substances from the isolated coronary artery in presence of angiotensin and of 4-methylesculetin. (V. Bettini, L. Calò, S. Cantaro, R. Martino, L. Munari, E. Salvatico, P. Ton) » 257
